

INVERTED AUDIO PRESENT TROPICS (LIVE) SHOREDITCH HOUSE, FRIDAY 7TH NOVEMBER

On **Friday 7th November** Inverted Audio present an intimate live show with **Tropics** at **Shoreditch House**, London.

The event is free to attend but space is limited. To apply for tickets, you must complete this [form](#) listing your name, phone number and postal address - we will contact you to confirm attendance - there will be NO entry without RSVP.

Fresh from signing to tastemaker LA label Innovative Leisure, **Tropics** will play a rare **London live show**.

Following cult releases for **Planet Mu**, as well as remixes for **M83**, **Little Dragon** and **Polica**, Tropics is unveiling a new and more vocally driven sound.

With a sound that sits somewhere between **Spirit Of Eden** era **Talk Talk** and the modern sensibilities of **Caribou**, Tropics will perform a **stripped down live show** at **Shoreditch House** alongside band mates Keith Vaz on guitar, plus Morgan Hislop on drums.

They will play a selection of live renditions of their current discography, plus new tracks taken from their highly anticipated second album 'Rapture' scheduled for release early next year.

Support on the night comes from **Antepop**, Inverted Audio editor-in-chief, who will be playing an all vinyl selection of electronic music.

'Tropics mastermind Chris Ward is a voracious and accomplished student of sound'

Pitchfork

'Chris Ward is totally tropical, but also reminiscent of that snowy animal Caribou'

The Guardian
